

This is who I imagined when I wrote Dr. Jason Rogers. Jon Hamm fit the grieving husband/father, perfectly. Unfortunately, the depiction on the cover of my book looks nothing like the character I described.

On the next page, you'll see what I envisioned when I wrote Nurse Claire Albright, and page three is a snapshot of Gina, her daughter.

Sometimes, book covers can be disappointing, and I must admit this one does not do my characters justice. I hope you'll still give **The Boss and Nurse Albright** a chance. I love the MidCoast Medical community in Santa Barbara, and I introduce all of the characters for the trilogy in the first book. Book number two, an August release, **The Heart Doctor and the Baby**, is Jon and Rene's story, and book number three, not titled yet, is Phil Hansen's book and will be a December 2010 Christmas book.
